

Brief Professional Profile of Richard Hons, Consulting Geologist, March 2017

Name: Richard Hons
Profession: Exploration geologist and geochemist
Contact: Tel.: +420 603447058
richard.hons@seznam.cz
Web Pages: www.radioaktivnistranky.cz
Basic Personal Data: Born 1963 in Prague, married, two daughters
Education: Faculty of Science, Charles University, Prague – RNDr. (rerum naturalium doctoris)

Professional knowledge:

- Experienced and self-reliant in field works within mineral exploration (mapping, sampling, field laboratory works).
- Interpretation and evaluation of the obtained field data.
- Focussed especially on prospecting for gold and other metals, heavy minerals and gemstones.
- Measuring of radioactivity and radon soil survey.

Other knowledge and skills:

- Acquainted with work in arid and tropical humid environment; social skills in conducting exploration projects.
- Languages: Czech, English, Russian, French, German, Spanish; elementary proficiency in Arabic.
- Computers: office programs, Gimp, HTML
- Driving licence: A, B, C, T.
- Climbing and speleological techniques – experienced in exploration and documentation of underground spaces.

Experience:

- Within Czech republic mineral exploration and soil radon survey – numerous smaller projects.
- CR – 2016 – survey of greisen lithium deposit – GEOMET
- Mali – 2015 – prospecting for gold and exploration of gold deposits – GET
- Benin – 2013 – prospecting for gold and exploration of gold deposits - Timex Zdice
- Benin – 2011 – prospecting for gold and exploration of gold deposits - CESS
- Germany – 2000 – prospecting for gold - Timex Zdice
- Macedonia – 1998 – prospecting for gold - Timex Zdice
- Slovakia – evaluation of possibilities of investmen to Au-deposits exploration and mining in the region - Timex Zdice
- 1987 – 1991 - Institute of Geology AS CR (Department of Geochemistry) – several projects in the field of geochemistry and mineralogy (accessory minerals, crystal chemistry, weathering).
- 1982 – 1987 Faculty of Science, Charles University, Prague (thesis: „Prospecting for Gold and Tungsten in the Northern Surroundings of Písek“).
